Dear **Tailiang**,

I am pleased to offer you an invitation to visit our university labs and observe classes in college of Optometry on Pacific University's Forest Grove campus located at: 2043 College Way, Forest Grove, OR 97116. The faculty host is Shun-nan Yang, PhD, Director of the Bachelor of Applied Vision Science Program. Your expected visit period is from **April 11, 2018 to June 10, 2018**.

As international optometric scholars and practitioners, you will have the opportunity to further and exchange your knowledge and skills in advanced vision therapy and clinic management. Faculty of the College of Optometry at Pacific University is well known for their expertise and teaching in these fields. The University also offers the opportunity to the participants to observe the optometric practice in U.S. in first hand, and to experience the culture of the communities in and around the western State of Oregon.

Attached please find an outline of the workshop and an invoice of fees for the workshop and for lodging and meals, transportation, and other activities arranged by the University. The outline explains the week by week activities we have planned for you. Please use the included information to make payments to the specified account. Once we receive your payment to confirm your plan to participate, additional information will be sent to you to arrange your non-immigration documents, lodging and meal plans, and transportation information.

For questions about the logistics of your visit, please contact Estelle Wang at (503)352-2884 or estelle.w@pacificu.edu. I am pleased that you will be visiting the College of Optometry and I look forward to meeting you.

Sincerely,

Shun-nan Yang

Shun-nan Yang, PhD

Director, Bachelor of Applied Vision Science Program
